SET UP - PAVILION 4mx4m - 5mx5m - 6mx6m

Recommended procedure below. For safety reasons it is recommended that TWO persons set up any marquee. Ensure area is free from any sharp objects and overhead objects.

ONE

Layout all Roof Beams and Connectors into position and connect.

TWO

Attach both Cross Wires from corner to corner and then tension.

THREE

Layout PVC Roof over the frame.

FOUR

Attach all corners of the PVC Roof to the Corner Connectors on the Frame.

FIVE

Insert two of the Legs into the Corner Connectors.

SIX

Position Center Pole in the peak of the Roof, slide the Centre Pole into Cross Wires and position.

SEVEN

Attach Velcro Straps around Roof Beams.

EIGHT

Insert the remaining Legs into the Corner Connectors.

NINE

Attach Steel Foot to the bottom of Legs.

TEN

Connect Ratchet to Steel D Rings at the top and down to connection on Foot.

ELEVEN

Tension Ratchets and Ropes until firm.
